The ability of Horizonte to attract a person of Paul's calibre speaks highly of the Company's growing reputation and the quality of our Araguaia nickel project in Brazil which has a maiden resource of 76.6 million tonnes at 1.35% nickel and 0.06% cobalt. Paul will be intimately involved in developing Araguaia towards defining a resource in excess of 100 million tonnes with grades comparable to other world class nickel deposits, and in turn, towards a pre-feasibility and subsequent feasibility stage. In addition, he brings his wide ranging skills to support our other exploration activities in Brazil, including our Falcao gold project where we have initiated a 3,000m drilling campaign to ascertain the economic potential of the project."
