Notes to the Financial Statements

1. General information

The principal activity of the Company and its subsidiaries (together 'the Group') is the exploration and development of precious and base metals. There is no seasonality or cyclicality of the Group's operations.

The Company's shares are listed on the Alternative Investment Market of the London Stock Exchange (AIM) and on the Toronto Stock Exchange (TSX). The Company is incorporated and domiciled in the United Kingdom. The address of its registered office is 26 Dover Street London W1S 4LY.

2. Basis of preparation

The condensed consolidated interim financial statements have been prepared using accounting policies consistent with International Financial Reporting Standards and in accordance with International Accounting Standard 34 *Interim Financial Reporting*. The condensed interim financial statements should be read in conjunction with the annual financial statements for the year ended 31 December 2015, which have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union.

The condensed consolidated interim financial statements set out above do not constitute statutory accounts within the meaning of the Companies Act 2006. They have been prepared on a going concern basis in accordance with the recognition and measurement criteria of International Financial Reporting Standards (IFRS) as adopted by the European Union. Statutory financial statements for the year ended 31 December 2015 were approved by the Board of Directors on 15 March 2016 and delivered to the Registrar of Companies. The report of the auditors on those financial statements was unqualified.

The condensed consolidated interim financial statements of the Company have not been audited or reviewed by the Company's auditor, BDO LLP.

Going concern

The Directors, having made appropriate enquiries, consider that adequate resources exist for the Group to continue in operational existence for the foreseeable future and that, therefore, it is appropriate to adopt the going concern basis in preparing the condensed consolidated interim financial statements for the period ended 30 June 2016.

Risks and uncertainties

The Board continuously assesses and monitors the key risks of the business. The key risks that could affect the Group's medium term performance and the factors that mitigate those risks have not substantially changed from those set out in the Group's 2015 Annual Report and Financial Statements, a copy of which is available on the Group's website: www.horizonteminerals.com and on Sedar: www.sedar.com The key financial risks are liquidity risk, foreign exchange risk, credit risk, price risk and interest rate risk.

Critical accounting estimates

The preparation of condensed consolidated interim financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the end of the reporting period. Significant items subject to such estimates are set out in note 4 of the Group's 2015 Annual Report and Financial Statements. The nature and amounts of such estimates have not changed significantly during the interim period.

3. Significant accounting policies

The condensed consolidated interim financial statements have been prepared under the historical cost convention as modified by the revaluation of certain of the subsidiaries' assets and liabilities to fair value for consolidation purposes.

The same accounting policies, presentation and methods of computation have been followed in these condensed consolidated interim financial statements as were applied in the preparation of the Group's Financial Statements for the year ended 31 December 2015.

4 Segmental reporting

The Group operates principally in the UK and Brazil, with operations managed on a project by project basis within each geographical area. Activities in the UK are mainly administrative in nature whilst the activities in Brazil relate to exploration and evaluation work. The reports used by the chief operating decision maker are based on these geographical segments.
